OF

THE DEPENDENT RESURVEY OF
A PORTION OF THE SUBDIVISIONAL LINES,
THE SUBDIVISION OF SECTIONS 28 AND 29

AND

A METES AND BOUNDS SURVEY
THROUGH SECTIONS 28 AND 29,

IN

TOWNSHIP 42 SOUTH, RANGE 16 WEST

OF THE SALT LAKE MERIDIAN
IN THE STATE OF UTAH

EXECUTED BY

Larry V. Judd
Cadastral Surveyor

Under special instructions dated *July 2, 2001*, approved *July 2, 2001*, which
provided for the surveys included under Group Number *937*, and assignment
instructions dated *July 2, 2001*

Survey commenced *July 6, 2001*
Survey completed *August 17, 2001*

PRIVATE SURVEYS

Gale E. Day for Bulloch Brothers Engineering of Saint George Utah, executed a survey in Section 28, T. 42 S., R. 16 W., with the plat dated October 1991, and signed October 14, 1991.

DEPENDENT RESURVEY OF A PORTION OF THE SUBDIVISIONAL LINES
T. 42 S., R. 16 W., SALT LAKE MERIDIAN, UTAH

Terry Abplanalp for Rosenberg Associates of Saint George Utah, executed a survey in sections 27, 28, 34 and 35, T. 42 S., R. 16 W., with the plat dated December 16, 1999, and signed January 18, 2000.

Bush and Gudgell Inc. of Saint George Utah, executed a GPS survey with numerous corners found and tied in Tps. 41 and 42 S., Rs. 16 and 17 W., for a Washington County Horizontal Control Network. The plat was signed by Ron Whitehead May 21, 1996.

The survey was executed in accordance with the specifications set forth in the Manual of Surveying Instructions, 1973, and the Special Instructions for Group No. 937, Utah, dated July 2, 2001.

The directions of lines were determined by references to true meridians established by the Global Positioning System, utilizing Real Time Kinematic (RTK) survey techniques observed with Trimble 4700 model Global Positioning System receivers along with Pacific Crest radio equipment.

Preliminary to the resurvey, retracement and survey, the lines of the prior surveys were retraced and a diligent search was made for all corners and other calls of record. Identified corners were remonumented in their original positions. The retracement data were thoroughly verified and only the true line field notes are given herein.

Geodetic control was derived from National Geodetic Survey triangulation station "B 365", with published data as follows:

Latitude 37° 07' 33.17700" N. Longitude 113° 38' 09.80578" W.
N.A.D. 1983 (1994)

The geographic position of the corner of sections 27, 28, 33 and 34, as determined by a tie made to National Geodetic Survey triangulation station "B 365", is as follows:

Latitude 37° 05' 43.955" N. Longitude 113° 38' 26.771" W.
N.A.D. 1983

Dependent Resurvey of a Portion of the Subdivisional Lines,
T. 42 S., R. 16 W., Salt Lake Meridian, Utah.

Reestablishment of the Survey Executed by
M.H. Dalley in 1900,
and the Resurvey by G.B. Hatch in 1968.

Beginning at the corner of sections 27, 28, 33 and 34, monumented with an iron post, 2 1/2 inches diameter, firmly set in a mound of stone, with the brass cap marked as described in the official record of the resurvey by G.B. Hatch in 1968.

The corner falls, 4 feet south of the center of a dirt trail, 3 feet wide, bears east and west, set on a gradual northeast slope.

DEPENDENT RESURVEY OF A PORTION OF THE SUBDIVISIONAL LINES,
T. 42 S., R. 16 W., SALT LAKE MERIDIAN, UTAH

Chains

- 40.264** The 1/4 section corner of sections 28 and 29, monumented with an iron post, 2 1/2 inches diameter, firmly set in a mound of stone, with the brass cap marked as described in the official record of the resurvey by G.B. Hatch in 1968.

N. 0° 02.0' E., beginning new measurement.

- 40.320** The corner of sections 20, 21, 28 and 29, monumented with an iron post, 2 1/2 inches diameter, firmly set in a mound of stone, with the brass cap marked as described in the official record of the resurvey by G.B. Hatch in 1968.

From the corner of sections, 20,21,28 and 29.

S 89° 56.7' E., between sections 21 and 28.

- 34.201** The 1/4 section corner of section 21 only, monumented with an iron post, 2 1/2 inches diameter, firmly set projecting 6 inches above ground, with a mound of stone to the north, and with the brass cap marked as described in the official record of the resurvey by G.B. Hatch in 1968.

S 89° 53.6' E., beginning new measurement.

- 6.262** The 1/4 section corner of section 28 only, monumented with an iron post, 2 1/2 inches diameter, firmly set projecting 6 inches above ground, with a mound of stone to the north, and with the brass cap marked as described in the official record of the resurvey by G.B. Hatch in 1968.

S 89° 36.7' E., beginning new measurement.

- 19.486** The point for the E 1/16 section corner of section 28 only.

Set an aluminum post, 30 inches long, 2 1/2 inches diameter, 24 inches in the ground, with the aluminum cap marked:

E 1/16 S28
2001

Raise a mound of stone, 4 ft. base, by 2 ft. high to the south of the aluminum post.

Set a steel fence post alongside the aluminum post.

- 33.926** The point for the closing corner of sections 21 and 28 at intersection with the line between sections 21 and 22, as determined from the plat of survey by Rosenberg Associates dated December 16, 1999. The point falls within a vacant lot of the subdivision not suitable for permanent monumentation and therefore not monumented.

From the corner of sections 28, 29, 32 and 33.

DEPENDENT RESURVEY OF A PORTION OF THE SUBDIVISIONAL LINES,
T. 42 S., R. 16 W., SALT LAKE MERIDIAN, UTAH

Chains

0.772 The point for the closing corner of sections 21 and 28, hereinafter described.

20.059 Point for the S 1/16 section corner of sections 21 and 22.

Set an aluminum post, 30 inches long, 2 1/2 inches diameter, 24 inches in the ground, with the aluminum cap marked:

S 1/16
S21|S22
2001

Deposit a magnet, enclosed within a clear plastic case at the base of the aluminum post.

Raise a mound of stone, 3 ft. base, by 1 ft. high to the west of the aluminum post.

The corner falls on a open moderate southeast slope.

40.206 The 1/4 section corner of sections 21 and 22, monumented with an iron post, 2 1/2 inches diameter, firmly set, projecting 3 inches above ground, with a steel fence post alongside, and with the brass cap marked as described in the official record of the resurvey by G.B. Hatch in 1968.

The corner is set in a fence line, projecting east and west, and on the north side of a concrete ditch, which bears east and west.

From the corner of sections 27, 28, 33 and 34.

N. 89° 51.2' W., between sections 28 and 33.

39.721 The 1/4 section corner of sections 28 and 33, monumented with an iron post, 2 1/2 inches diameter, firmly set in a mound of stone, with the brass cap marked as described in the official record of the resurvey by G.B. Hatch in 1968.

N. 89° 51.2' W., beginning new measurement.

39.782 The corner of sections 28, 29, 32 and 33, monumented with an iron post, 2 1/2 inches diameter, firmly set, projecting 3 inches above ground, with a mound of stone to the west, and with the brass cap marked as described in the official record of the resurvey by G.B. Hatch in 1968.

The corner falls, on a gradual northwest slope.

N. 0° 02.7' E., between sections 28 and 29.

34.817 Intersect the line between Angle Point No. 7 and Angle Point No. 8, corner points of a metes and bounds survey through sections 28 and 29, hereinafter described, not monumented.

DEPENDENT RESURVEY OF A PORTION OF THE SUBDIVISIONAL LINES,
T. 42 S., R. 16 W., SALT LAKE MERIDIAN, UTAH

Chains

N. 0° 02.7' E., between sections 27 and 28.

39.368 Point for the 1/4 section corner of section 27 only, not monumented.

40.279 Point for the 1/4 section corner of section 28 only, as determined from field notes of a survey by Bush and Gudgell Inc. dated 12/15/00 for Washington County, where reference points were established by both Bush and Gudgell and Rosenberg Associates to perpetuate the position of the 1/4 section corner.

The point for the 1/4 section corner falls within a haul road of an on going phase of construction within the Sunbrook subdivision. The monument was removed during the construction of the haul road, not suitable for permanent monumentation, and therefore not remonumented.

N. 0° 02.6' W., beginning new measurement.

20.198 Point for the N 1/16 section corner of section 28, not monumented.

39.527 The point for the closing corner of sections 27 and 28, at intersection with the south line of section 22, as determined from the plat of survey by Rosenberg Associates dated December 16, 1999, and verified by a GPS tie executed by Bush and Gudgell for Washington County in 1996, with the reference plat dated 5/21/96.

This monument was removed during the construction phase of the Sunbrook Subdivision. The point falls within a house on the lot of the subdivision, not suitable for permanent monumentation, and therefore not remonumented.

From the point for the closing corner of sections 27 and 28 on the south boundary line of section 22.

S. 89° 31.0' W., on the south boundary line of section 22.

5.035 The point for the SW corner of section 22, as determined from the plat of survey of Rosenberg Associates, dated December 16, 1999, and verified by a GPS tie executed by Bush and Gudgell of Washington County in 1996, with the reference plat dated, 5/21/96.

This monument was removed during the construction phase of the Sunbrook subdivision. The point falls within a vacant lot of the subdivision, not suitable for permanent monumentation, and therefore not remonumented.

From the point for the SW corner of section 22.

N. 0° 54.4' W., on the line between sections 21 and 22.

Chains

N. 89° 53.1' W., between sections 29 and 32.

- 40.018** The 1/4 section corner of sections 29 and 32, monumented with an iron post, 2 ½ inches diameter, firmly set, projecting 3 inches above ground, with the brass cap marked as described in the official record of the resurvey by G.B. Hatch in 1968.

Raise a small mound of stone north of the iron post.

The corner falls on a gradual open southwest slope.

N. 89° 29.8' W., beginning new measurement.

- 39.703** The corner of sections 29, 30, 31 and 32, monumented with an iron post, 2 ½ inches diameter, firmly set in a mound of stone, with the brass cap marked as described in the official record of the resurvey by G.B. Hatch in 1968.
-

N. 0° 06.8' W., between sections 29 and 30.

- 40.337** The 1/4 section corner of sections 29 and 30, monumented with an iron post, 2 ½ inches diameter, firmly set, projecting 6 inches above ground, with the brass cap marked as described in the official record of the resurvey by G.B. Hatch in 1968.

Raise a small mound of stone west of the iron post.

The corner falls on a gradual open south slope.

N. 0° 02.9' E., beginning new measurement.

- 40.424** The corner of sections 19, 20, 29 and 30, monumented with an iron post, 2 ½ inches diameter, firmly set, projecting 4 inches above ground, with a mound of stone to the northeast and with the brass cap marked as described in the official record of the resurvey by G.B. Hatch in 1968.
-

From the corner of sections 20, 21, 28 and 29.

N. 89° 31.7' W., between sections 20 and 29.

- 39.823** The 1/4 section corner of sections 20 and 29, monumented with an iron post, 2 ½ inches diameter, firmly set, projecting 10 inches above ground, with a mound of stone to the north, and with the brass cap marked as described in the official record of the resurvey by G.B. Hatch in 1968.

The corner falls on a gradual northeast slope.

N. 89° 36.1' W., beginning new measurement.

- 39.984** The corner of sections 19, 20, 29 and 30.

T. 42 S., R. 16 W., SALT LAKE MERIDIAN, UTAH.

Chains

The Subdivision of Section 28
T. 42 S., R 16 W., Salt Lake Meridian, Utah

From the 1/4 section corner of sections 28 and 33.

N. 0° 31.7' E., on the N - S center line of section 28.

- 40.273** Point for the center 1/4 section corner at intersection with the E - W center line of section 28.

Set a aluminum post, 30 inches long, 2 1/2 inches diameter, 16 inches in the ground, set in a mound of stone, 4 ft. base to top of the aluminum cap marked:

T42S R16W
C 1/4
S28
2001

Deposit a magnet, enclosed within a clear plastic case at the base of the aluminum post.

The corner falls on a gradual north slope.

- 59.241** Point selected for Angle Point No. 1, a corner point of a metes and bounds survey through sections 28 and 29, hereinafter described.

Set a rebar, 8 inches long, 3/4 inch diameter, drilled 7 inches in the ground, with a 3 1/4 inches diameter aluminum cap attached and marked: AP-1 2001.

- 60.491** Point for the center N 1/16 section corner, monumented with a rebar, 5/8 inch diameter, firmly set, projecting 3 inches above ground with a yellow plastic cap attached and marked: ABPLANALP 5030 ROSENBERG ENG, and with a steel fence post alongside.

This monument is accepted as a faithful determination of the center N 1/16 section corner position.

At the rebar.

Set an aluminum post, 30 inches long, 2 1/2 inches diameter 24 inches in the ground with the aluminum cap marked:

C
N 1/16 | S 28
C
2001

Deposit the rebar inside the aluminum post.

Raise a mound of stone, 4 ft. base, by 2 ft. high to the west.

The corner falls on a steep southeast slope.

- 80.669** The 1/4 section corner of section 28 only.
-

METES AND BOUNDS SURVEY THROUGH SECTIONS 28 AND 29.
T. 42 S., R. 16 W., Salt Lake Meridian, Utah

From Angle Point No. 1 on the N - S center line of section 28, hereinbefore described.

S. 53° 28.1' W.

12.011 Point for Angle Point No. 2.

Set a rebar, 8 inches long, 5/8 inch diameter, drilled 7 inches in the ground, with a 3 1/4 inches diameter aluminum cap, attached and marked: AP-2 2001.

The corner falls, approximately 6 feet north of the rim edge.

Thence S. 59° 25.7' W.

8.099 Point for Angle Point No. 3.

Set a rebar, 8 inches long, 5/8 inch diameter, drilled 7 inches in the ground, with a 3 1/4 inches diameter aluminum cap, attached and marked: AP-3 2001.

The corner falls, approximately 1 foot north of the rim edge.

Thence S. 46° 49.4' W.

11.165 The intersection point with the E - W center line of section 28, hereinbefore described.

11.954 Point for Angle Point No.4.

Set a rebar, 8 inches long, 5/8 inch diameter, drilled 7 inches in the ground, with a 3 1/4 inches diameter aluminum cap, attached and marked: AP-4 2001.

The corner falls, approximately 1.5 feet north of the rim edge.

Thence S. 57° 25.2' W.

11.222 Point for Angle Point No. 5.

Set a rebar, 8 inches long, 5/8 inch diameter, drilled 7 inches in the ground, with a 3 1/4 inches diameter aluminum cap, attached and marked: AP-5 2001.

The corner falls, on the first ledge down from the top rim, approximately 4 feet north of the rim edge.
